

# *Promises to Keep*

## The Maine Medical Center Legacy Society

Maine Medical Center is the premier hospital in northern New England serving the people of Maine and our neighboring states. Our three-part mission is to provide high quality patient care regardless of ability to pay, to educate and train physicians, nurses, and other healthcare professionals, and to conduct research to explore and develop the latest advancements in medicine.

Our successes have been due, in part, to the generosity of many individuals who have made gifts during their lifetimes or included Maine Medical Center in their estate plans. Our ability to continue our programs and meet the challenging healthcare needs of our community depends on you and others who will help us to provide for the future.

The Maine Medical Center Legacy Society honors those who have helped create a legacy of service, education, and research for improving healthcare. We invite individuals who create a future gift intention for the Medical Center – be it through their estate plans, permanently restricted funds, or other planned gifts – as well as those who have been supporting our Annual Giving program for 25 consecutive years, to become members of this select group.

The highlight of membership is an invitation to an annual reception and luncheon with the President of Maine Medical Center, the Chairman of the Board of Trustees, and other Hospital leadership to hear about the latest developments at MMC and in healthcare in general. Other benefits include periodic invitations to attend educational and healthcare seminars, behind-the-scenes tours of clinical areas of interest, and regular correspondence on the latest news of interest at Maine Medical Center.

All new members of the Society are presented with a Legacy Society pin as an expression of our appreciation. This pin serves as a symbol of the donor's commitment to healthcare in Maine. It is our hope that it prompts inquiries from others, thus allowing our members to serve as ambassadors for these important gifts.

The Trustees and staff of Maine Medical Center, as well as the thousands of patients we serve, are grateful to each individual who has established a legacy as a means of providing hope and a promising future for the people of Maine.

We welcome you into the partnership of the Maine Medical Center Legacy Society.

For additional information on the Legacy Society and planned giving opportunities at Maine Medical Center, please visit our website at [www.mmc.org/plannedgiving](http://www.mmc.org/plannedgiving), or contact John Curran or Susan Doliner at:
